

Complete Motion and Automation Solutions

The highest performance and the right fit for any application.

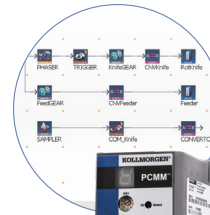

AKD[®]-N Decentralized Servo Drive

SERVO DRIVES

AKD[®] 2G Servo Drives

AKI2G Touch Panels

Kollmorgen Automation Suite™ (KAS)

PROGRAMMABLE CONTROL

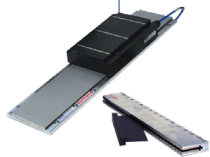

AKT2G I/O Block

KAS Programmable Automation Controllers

KSM Kollmorgen Safety Module

DIRECT DRIVE LINEAR

DIRECT DRIVE ROTARY

Cartridge DDR[®] Motors

STANDARD ROTARY

AKM[®] Servo Motors

ACTUATION

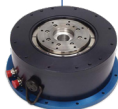

Electric Cylinder Actuators

STEPPER SYSTEMS

P-Series Stepper Drives

Housed DDR Frameless Motors

Housed DDR[®] Frameless Motors

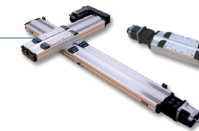

AKM[®] 2G Servo Motors

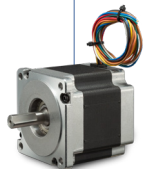

HYGIENIC

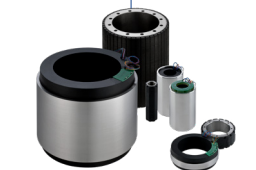

AKMH[™] Servo Motors

Multi-Axis Precision Tables

Stepper Motors

Frameless Direct Drive Motors

EXPLOSION-PROOF

Goldenline EB Series

TBM2G & Robotic Motors

AUTOMATION FOR AGVs & MOBILE ROBOTS

Control Panel • Vehicle Control • Navigation • Robotics

ACCESSORIES

Cables & Connectors • Shielding Solutions
Brake Resistors • Chokes & Filters
KCM Static & Braking Energy Storage

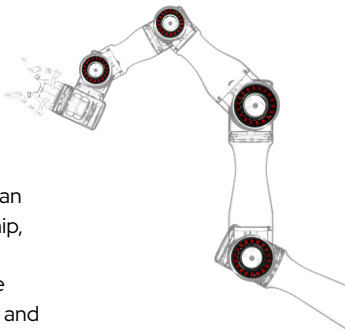

Engineer the Exceptional

If you can think it, we'll help you build it.

With Kollmorgen as a motion and automation partner, engineers like you are solving tough problems and making a meaningful difference.

More Ambitious Machines and Vehicles

You have big ideas. We have the motion capabilities and expertise to bring your ideas to life and move them to the forefront. Building on more than 100 years of industry leadership, our motion systems deliver unrivaled performance for the most demanding applications and environments, where failure is not an option.

More Capable Performance

We design motion systems to fit your machine. Get custom-like capabilities with access to more than one million standard motion products and a wide range of standard modifications—special windings, encoder options, cabling alternatives, environmental sealing and more.

More Confident Engineering

Through our collaborative engineering approach, self-serve design tools, developer network, rapid prototyping, scalable manufacturing, and global in-region, for-region engineering support, we'll help you bring a better machine to market and support it throughout its full lifecycle.

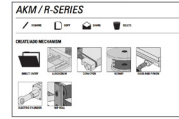

Online Design Tools

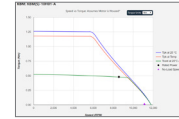

Product Selector

Quickly choose the ideal products for your application needs.

Motioneering®

Size your motion system based on application requirements and motion profiles.

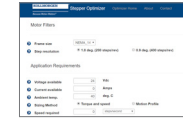

Performance Curve Generator

Optimize housed and frameless motor windings based on power and environmental factors.

3D Models

Visualize products in 3D and download CAD files for use in your design.

Stepper Optimizer

Interactively choose the most efficient stepper solution for your application.

AKD2G Safe Dynamic Brake Calculator

Specify and size the right braking components while saving development time.

Learn more and try our design tools now.

We Serve All These Markets and More

Robotics

- Surgical
- Collaborative
- Industrial
- Defense

Medical

- CT/MRI Imaging
- Mammography
- Laboratory Automation
- Therapeutic Devices

Food & Beverage

- Bottling, Filling, Conveying
- Slicing and Interleaving
- Food Safety and Inspection
- Form/Fill/Seal

Pharmaceutical

- Tablet Forming
- Blister Packaging
- Smart Conveying
- Dispensing

Material Forming

- Laser, Waterjet and Plasma Cutters
- Bending Machines
- Machine Tools
- Stamping and Press Brakes

Packaging & Converting

- Labeling
- Cartoners
- Die Cutting and Laminating
- Flexible Packaging
